## Personal Statement

Firstly, I would like to study in the USA because it has world-renowned academia, with some of the top universities in the world. American universities provide a wide range of courses and the American higher education system provides time and options for students to explore different interests. Having an international degree will enable me to have a vast range of career options. Overall this would also tie in with my passion for soccer as they have such high quality that hopefully, I can conquer."
